

St Mary Magdalene Catholic Primary School

Whole School Visits and Visitors Overview

School trips and events linked with curriculum topics are mapped out across the whole school to ensure a broad wealth of experiences as children progress through the school. This will ensure that every year group has a fair distribution of high profile off-site or non-class based learning opportunities, thus ensuring that the children move forward to entering each year group, and also to ensure that the cost burden on parents is monitored eg. costly trips are spread across different year groups.

Visit and Visitor Planner
