

St Mary Magdalene Catholic School

What is Sports Premium?

The Government has been providing a Sports grant since 2013. Schools must use the funding to make additional and sustainable improvements to the quality of PE and sport they offer, to build capacity within the school to ensure that improvements made will benefit pupils joining the school in future years. There are 5 key indicators which a school should use to demonstrate improvement. Schools are required to publish details of the amount they receive and how they spend this funding as well as the impact it has on pupils PE and sport participation. Governors hold the school to account for this and recognise the contribution that PE makes to pupils' health and wellbeing. We know that it is considered that an innovative and varied PE curriculum has a positive influence on the concentration, attitude and academic achievement of pupils.

Impact Statement 2017/18

All pupils leaving the school could swim. The school doubled the amount of swimming sessions provided at an additional cost of £2070. 5 lunchtime clubs were introduced this school year. Every class had an opportunity to attend to increase their fitness and develop their skills. In addition all classes now participate in the daily mile, some walk, some jog, but the majority of children run.

There is an increased participation in after school clubs and the number of children representing the school in competitions, festivals and Catholic school events.

Support and planning from the school coach ensures high quality teaching and CPD for staff. The Year 5 children's fitness and knowledge of healthy eating has increased due to participation in NHS programme "Alive 'n' Kicking" for pupils and parents. This was a twelve week course covering physical activities and cooking. We hope to offer this again next year.

Sports Premium 2018-2019

Funding allocated £19,450

Number of pupils 350

St Mary Magdalene Governors and staff recognise the significant contribution PE makes to

the health and well-being of our children. Quality PE lessons and a wide range of extracurricular opportunities can make a great impact on children's concentration, their attitude, physical well-being and academic achievement. This year's PE grant will enable the school

to do the following:

- Provide additional PE equipment
- Employ a PE coach and dance teacher £18,660
- Provide lunchtime activities for all classes/ages £2,000
- Enhance after school extra curricular activities

All year 6 pupils leaving the school could swim.

Additional PE equipment from the Sugar Tax provided a range of lunchtime activities. Pupils had access to expert athletics coaching to boost and enhance participation and performance. PE storage was improved and secure doors fitted.

School mini-bus provided free transport to competitions to offer equality of participation.

Impact Statement for 2018-2019

Increased 100% pupil participation in physical activity. Lunchtime incidents very rare -75%. Pupil participating in a wide variety of sports. Increased percentage of pupils participating in MK competition calendar 60%. Pupils' leadership skills developed further. 100% of pupils leaving the school could swim 25m or more. 28 Year 5 pupils participated in Bikeability Road Safety improved through Bikeability assembly. Children who completed bikeability safer and more confident on the roads. Teacher confidence in teaching P.E. increased.

Sport Funding 2019-2020

This year the school received £18,920 for our sport grant. However, the governors have also allocated £35,000 to support the planned spending.

Appoint new PE coach £20,000

Review PE curriculum (time for PE co-ordinator) £ 750

Review PE resources £ 750

Increase range of after school clubs

Increase numbers attending after school clubs

Improve outside equipment to improve children's fitness levels £25,000

Continue to offer 2 swimming lessons per week

Impact Statement for 2019-2020

94% of Year 6 pupils that swim competently, confidently and proficiently over a distance of 25 metres.

80% of Year 6 pupils use a range of strokes effectively.

62% of Year 6 pupils perform safe self-rescue in different water-based situations. The school does not use sport premium to provide additional swimming but may consider this in the future.

The school ensures all pupils participate in regular physical activity by ensuring pupils participate in the daily mile and Activate. We encourage cycling to school and pay for Bikeability for Year 5 pupils.

Our school offers physical activity at lunchtime and our staff encourage self-directed play during playtimes. Additional equipment was purchased using sport funding.

94% of pupils' fitness levels has increased. The daily mile is now firmly embedded in the school with children participating at least three times per week. We will continue to encourage children to cycle or scoot to school and provide storage areas and Bikeability training. We hope to increase the % of pupils cycling and scooting to school to 25% by the end of 2021.

The profile of PE and sport continues to rise across the school. 73% of our KS2 pupils took part in interschool competitions. We work in partnership with Milton Keynes schools and the Catholic schools, participating in cross country, athletics, tag rugby, football, basketball, badminton, netball to name but a few.

Staff knowledge, confidence and skills continue to increase in teaching PE and sport. This is because they have had the opportunity to work with expert coaches and staff from the Catholic secondary school. This has led to improving the progress and achievement of all staff as well as up-skilling all teaching staff.

The PE curriculum has been reviewed, a new policy drawn up and our scheme of work amended to focus on skills development enabling high quality PE lessons, continuity, progression and challenge for all.

75% of pupils attend a sport club at least once per week, with many attending 3. The range of clubs has increased to include football, running, basketball and multi-skills. Next year there will be a questionnaire for the pupils to find out what sports they would like. We will also try to involve parents.

PE and how the school will make improvement sustainable

We have used our PE grant to increase the number of activities the school already offers. The governors are committed to keeping these activities and extra-curricular clubs and as such have agreed to fund them if the PE grant is no longer available.

Staff confidence and ability in teaching PE has increased significantly. This will ensure that recent improvements will benefit pupils joining the school in future years.

School finances swimming lessons as part of the PE curriculum so this will continue. We aim to secure maximum and sustainable impact.

One NQT had CPD provided by a PE specialist, increasing her confidence and her ability to teach effective PE.

Swimming has been challenging this year due to COVID-19. Our Year 4 pupils have missed sessions. We will ensure they have the opportunity to attend lessons in Year 5 if necessary so that more of them are able to swim confidently.

The Playground Buddy Scheme has been fully implemented. We call these Playground Leaders and they encourage children to get active at lunchtimes, this is sustainable year on year.

The school mini bus is funded by the school and allows us to regularly transport children to and from competitive sport events and festivals. This allows children to participate and experience competitive sporting events.

Sports Premium 2020-21

This year the school received £19,008 in grants for PE and sport. The money is used to pay a sports coach who works 20 hours per week term time only £12,000. This allows us to offer lunchtime clubs for every year group, PE curriculum and after school sports club every day. This ensures our pupils receive around 4 hours of PE/sport per week. This does not include the daily mile and dance sessions with our school dance teacher Wendy Coulson.

We shall continue to offer two swimming sessions per week but no longer need to pay transport costs.

Our funding will allow us to offer an increased range of high quality resources to facilitate active play through the purchase of additional play time resources and the replacement of obsolete or lost equipment £2,500.

We shall purchase resources to facilitate active play in EYFS by the purchase of balance bikes, trikes, scooters to improve co-ordination £3,000.

Free school meals and SEND children are planned for and lessons and clubs facilitate all children by supporting access financial to extra curricular clubs or vouchers for sports equipment or kit £500.

Staff training for lunchtime staff to facilitate active playtimes by promoting physical activity.

Year 5/6 Bikeability paid for by the school plus cost for additional adults £200.

Balance to be carried forward to 2021-22 £250.

Impact Statement 2020-21

Swimming was cancelled due to the pandemic so unable to comment on number of Year 6 children who could swim confidently over 25 metres.

Children participate in regular physical activity through the daily mile and Active. Many of the planned activities for this financial year did not take place so the Sports Premium was not fully utilised and was carried forward to 2021-22.

At the time of writing (June 21) the school has been through periods of lockdown due to the coronavirus pandemic. We have been working within Government guidelines. This has impacted on our PE offer and reduced what we have been able to offer. For example, the school has not been able to run swimming sessions or after school clubs as we would in normal circumstances. The school is committed to active healthy pupils as we appreciate that the best way to fight the virus is to promote healthy active lifestyles but we will put pupil and staff safety first.

Sport and PE Premium 2021-22

The school received £19,015 this financial year for Sport and PE premium. Unfortunately the school has been in lockdown with only key worker children attending. We are hoping the school will reopen fully in June 2021.

As many of the planned activities were not able to go ahead the funding was carried forward from 2020-21 to this current financial year. This brings our total budget for 2021-22 to £21,758.

Planned Spending for 2021-22 is as follows:

Employ Sports coach	£12,000
Develop the PE curriculum by purchasing a progressive skills scheme	£1,500
Employ a playleader to support physical activity at lunchtimes	£3,500
CPD for all staff	£2,000
Pupil premium fund to support extra curricular activities and kit	£500
Increased participation in competitive sport, transport and kit, entry fees and supply cover for staff	£3,000
Total	£22,500
